

Appendix I

Peer-to-Peer Technical Assistance Projects

Peer-to-Peer Technical Assistance Projects

Peer-Peer projects help municipalities improve their park, recreation and conservation services through a collaborative process. Projects are accomplished through consultant contracts with experienced park, recreation and conservation professionals working closely with community leaders.

Examples of eligible projects include the forming of a new intergovernmental recreation and park agency (which is a high priority for DCNR); improving management of a specific facility like a community center, trail, or pool; conducting an overall management assessment of an agency's park and recreation services, and park and recreation board training and development.

Special Requirements and Conditions:

- **Peer applications are accepted at any time.** Discussion with DCNR staff is required before submission of an application.
- The maximum grant award is \$10,000. The applicant must provide at least a ten percent (10%) local cash match.
- DCNR staff will work with the grantee to develop a scope of work and select the appropriate consultant(s).
- An elected official from each involved municipality is expected to participate in the planning process.
